

11th - 14th October 2016 Monash University, Prato, Italy

VETPATH 2016

The Prato Conference on Pathogenesis and Antimicrobial Resistance of Animal and Zoonotic Diseases has been established by the ARC Centre of Excellence in Structural and Functional Microbial Genomics at Monash University to bring together researchers working in areas relevant to the mechanisms by which bacteria cause disease in animals, can be transferred to humans or make the pathogens resistant to antimicrobial treatment

The conference will be held at the Monash University Prato Centre, situated on the ground and first floors of the elegant 18th century Palazzo Vaj on Via Pugliesi in the historic centre of Prato, Italy.

Organizing committee

Joachim Frey, Switzerland

Ben Adler, Australia

Tom Inzana, USA
