## **Rationale**

The northern Italian cities of Bergamo and Brescia take up their joint status as Italy's Capital of Culture 2023. Bypassing the usual application process, the Italian parliament approved the candidature in "a symbol of hope and rebirth" for Bergamo and Brescia, both of which were devastated by the COVID-19 pandemic. The joint culture capital status "bears witness to a possible renaissance through the conscious choice of culture as a central element for civil education, creating skills, employment and social and economic resilience", reads a statement on the Bergamo Brescia 2023 website. In this context, it is a great honor that the city of Brescia will host the **7<sup>th</sup> National Congress of the Italian Society for Virology (SIV-ISV)**. The SIV-ISV National Congress represents the annual forum for the Italian scientists working in the different areas of virology (medical-clinical virology, molecular virology, veterinary virology, environmental and plant virology) involving basic, clinical and translational research and taking advantage of the most advanced technological platforms. In keeping with the tradition, the scientific structure of the Congress features different thematic sessions: Viral pathogenesis and disease, Virus-host interactions, Structural virology and biotechnology, Diagnostic virology, Antiviral therapy, Viral diseases and vaccines, Linking viruses to cancer, Emerging viruses, Zoonosis and viral infections in animals, plant and environmental virology, and for the first time, a Italian Society for Infectious and Tropical Diseases (SIMIT)/SIV-ISV joint session on HIV/AIDS. As usually, the Congress will be conceived to promote productive interactions between the different virological souls and we invite participants to explore synergies between different disciplines. Every session starts with Invited Lectures followed by oral communications selected from the "Call for Abstracts". Specific Symposia mainly dedicated to innovative methods of diagnosis, clinical aspects of virology, and tailored treatments, as well as Poster Exhibition and Discussion will complete the scientific structure of the Congress. Special attention has been given to Young Investigators whose participation has been encouraged by Scholarships.

The 7<sup>th</sup> national Congress of the Italian Society for Virology has been accredited to the Italian Ministry of health for CME Credits for the following professionals: Medical Doctor (all disciplines), Biologist, Biotechnologist, Medical laboratory technician, Nurse, Veterinary, Pharmacist, Physicist and Chemist.

# Abstracts

Abstracts will be reviewed by the Scientific Committee and may be selected for either **oral or poster presentation**.

Authors who wish to present scientific works are requested to send abstracts by **May 25<sup>th</sup>, 2023** using ONLY the online form on the **www.congressosiv-isv.com** website.

Authors must specify their preferred form of presentation (oral communication or poster) when sending their abstracts. The choice is not binding.

By **May 29<sup>th</sup>, 2023**, the organisational secretariat will send emails confirming acceptance of the selected works and the presentation mode (oral communication or poster).

## **ORAL COMMUNICATIONS**

The time limit for oral communications is 15 min, including discussions.

## **POSTER**

Poster dimensions should be 70 cm. (width) x 100 cm. (height).

Mounting materials will be provided in the posting area.

The presence of one of the authors is required at the discussion of the posters.

## **ABSTRACT SUBMISSION GUIDELINES**

- The text, in **English**, must contain (in the following order):
  - **Topic**: indication of the preferential topic
  - **Title**: title of abstract (short, written in UPPERCASE letters)
  - **Author(s)**: Initial of first name followed by surname, initials in uppercase, without academic title; underline name of Author who will present the work.
  - **Affiliation**: name and location of institution.
- Use the Word programme (Times New Roman, font size 12, single-spaced)
- Maximum length: 1 page.

## **CONTENTS**

The abstract must contain:

- Aim of the study
- Methods used
- Results and conclusions

Any bibliographic citations must be inserted in the text. Summary tables or graphs may be included provided they fit on the page of text.
